

Believe, Achieve, Soar with Pride

Welcome to the summer term in year 6 - amazingly it's already the children's finally term in primary school! The first half term, we will be focusing on preparation for the SATs which take place w/b 13th May and then after SATs we will spend more time exploring our other topics and hopefully have more time for fun!

Year 6 Newsletter

This half term our lessons will include:

- Revision of grammar, punctuation and spelling objectives before SATs and then a study of the book 'Street Child' in English.
- Reviewing all of the key year 6 maths objectives and focusing on problem solving tasks to prepare for our maths SATs.
- Studying changes during the Victorian era in history and the Victorians will also be the stimulus for some of our other work including: Victorian music; the work of William Morris in art and design; and designing moving toys in design technology.
- Finding out about the formation of hills and mountains in geography.
- Learning about living things and their habitats as well as evolution and adaptation in science.
- Revising what we know about Christianity in RE.
- Creating algorithms and studying 'What is Code?' in our computing lessons.

Homework

The main maths and English homework will continue to be set on Fridays and should be returned by the following Friday. Reading should be done at least 3 times per week with a comment in the child's reading record by a parent or carer.

PE

This half term, our PE lessons take place on Mondays and Thursdays. We will be working on developing our tennis and athletics skills. Weather permitting, our PE lessons will take place outside this term so trainers will be needed.
