

School Council Meeting – 21/11/18

Minutes

| In attendance    | Y2  | Y3          | Y4              | Y5              | Y6             |
|------------------|---|-------------|-----------------|-----------------|----------------|
| Mr Wood          | Rebecca<br>Bailey   | Mia<br>Liam | Julia<br>Declan | Kieran<br>Ebony | Layla<br>Lucas |
| Lunchtime update | Mr W apologised for the fact that this is the first School Council meeting since half term and explained that we will try to meet more frequently for a period to make up for it. There was a discussion around whether we felt that lunchtime was still an issue. The go-karts were discussed and suggestions were made about getting new equipment. Mr W suggested that School Council work with Mr Machin on the OPAL project. |             |                 |                 |                |
| OPAL             | Suggestions for resources...<br>Silver go-karts are no good – but the green ones are, and the council would like more green ones and some that are bigger than the green ones, but in the same style.<br>More tennis resources.<br>Netball/basketball hoops and balls.<br>Big lego blocks or some sort of construction material.  |             |                 |                 |                |
| OPAL             | Lucas suggested that there be some monitors for the container to carefully put away the resources as the container is currently a mess.<br>Perhaps members of School Council can become OPAL resource monitors and look after the container.  |             |                 |                 |                |
| OPAL             | We discussed accessing the EYFS outdoor area during dinner time and perhaps looking to replace the play equipment for a climbing frame.<br>It was suggested that we need somewhere for gymnastics that is not the grass.  |             |                 |                 |                |
| Clubs            | Bailey wanted to talk about the clubs that are available. He felt that people are not happy with the variety of clubs. New clubs were suggested...<br>Film club<br>Gymnastics club<br>Colouring/art club<br>Computing or coding club<br><br>There was also a heated discussion about the idea of a partner reading classes and homework club.   |             |                 |                 |                |

Agenda for next meeting – 28/11/18

|                         |  |
