

Wednesday 11th March

I can record and explain results.

Science Week investigation

Number of fungiform papillae (pink bumps)	Type of taster	Number in class
0-5	Non-taster	
6-10	Taster	
11+	Supertaster	

Conclusion

The most popular type of taster in Class 4 was is Supertaster. The ~~most~~ least is Non-taster. I don't think it was very accurate because it was hard to count the number of dots.
