Infection Control COVID-19 General Risk Assessment Form

All schools are advised to note the issues and suggested control measures in this document and then add detail specific to their school.

Name and Address of the School – Dean Bank F							
Current Number of Staff Employed- 32	Name of Person Completing the Risk Assessment- P Northcott / S Temple	Date of assessment – 1 st January 2021					
Current Number of Pupils on Role- 170	Review Dates- Reviewed weekly from September 1	Review Dates- Reviewed weekly from September 1st 2020					
Consultation -The Covid-19 Risk Assessment and	associated COVID Policy has been shared with the Governin	g Body and Staff members.					
Communication -The Covid-19 Risk Assessment a	nd associated COVID Policy has been shared with the whole	staff team.					

Staff covered by this assessment – The School Community	
COVID-19 is a virus which has serious effects which debilitates those and mentally. The UK has suffered huge fatality rates.	who have caught it and causes immense distress both physically
The virus is thought to spread mainly from person-to-person.	

- Between people who are in close contact with one another (within about 6 feet).
- Through respiratory droplets produced when an infected person coughs, sneezes, or talks.
- These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
- COVID-19 may be spread by people who are not showing symptoms.

Assessment

Injury requiring medical treatm	nent			
Minor	Medium	Low	Low	
First aid treatment				

In relation to working in schools, whilst it is not possible to ensure a totally risk-free environment, the Office of National Statistics' analysis on <u>coronavirus (COVID-19) related deaths linked to occupations</u> suggests that staff in educational settings tend not to be at any greater risk from the disease than many other occupations. There is no evidence that children transmit the disease any more than adults.

The school are following the guidance <u>Guidance for full opening: schools</u>

On January 4th 2021 the Prime Minister announced that England would enter a <u>National Lockdown</u> due to the surge in coronavirus cases.

For as long as COVID-19 remains in the community, judgements will need to be made within settings about how to minimise the risk from COVID-19, in the school community.

Public Health England advise systems of controls to minimize coronavirus (COVID-19) risks in school environments;

1. Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have

someone in their household who does, do not attend school.

- 2. Where recommended, use of face coverings in schools.
- 3. Clean hands thoroughly more often than usual.
- 4. Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 5. Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 6. Minimise contact between individuals and maintain social distancing wherever possible-Schools put in place measures that suit their circumstances.
- 7. Where necessary, wear appropriate personal protective equipment (PPE)-Where need identified.
- 8. Always keeping occupied spaces well ventilated.
- 9. Staff/Parents to engage with the <u>NHS Test and Trace</u> process-Where need identified.

H&S Manual	Form	Version	Issue Date	Next Review	Page
School	COVID-19 Risk Assessment	1.2	Jan 2021	Ongoing	2/19

- 10. Manage confirmed cases of coronavirus (COVID-19) amongst the school community-Schools have been provided with guidance from DCC
- 11. Contain any outbreak by following local health protection team advice-Where need identified.

Durham County Council (DCC) have produced two documents to support schools in their decision making in relation to COVID-19; <u>Child/staff develops symptoms in school/setting</u> and <u>Schools/Education settings COVID-19 reporting process</u>.DCC HR colleagues have produced a flow diagram for schools to follow-<u>Employee testing and isolation requirements</u>.

For further advice and support contact the Children & Young People's/Adult & Health Services ,Health and Safety Team -<u>hsteam@durham.gov.uk</u> and 03000 263430.

Change to isolation period for close contacts.

On the 11th December 2020 the <u>Department for Health & Social Care</u> released the <u>UK Chief Medical Officers' statement</u> regarding the reduction in the number of days people have to self-isolate from <u>14 days</u> to <u>10 days</u>. the change applies from 00:01am on Monday 14 December.

The change to the isolation period for close contacts will apply to all those who are currently self-isolating including those who commenced self-isolation before Monday the 14th December, their self-isolation can now end after 10 days.

Self-isolation is essential to reducing the spread of COVID as it breaks the chains of transmission.

People who return from countries which are not on the travel corridor list should also self-isolate for 10 days instead of 14 days.

People who test positive should continue to self-isolate for 10 days from onset of symptoms or 10 days from point of taking a positive test if asymptomatic.

The Guidance for full opening: schools was updated on the 14th December 2020 to reflect the change in the isolation period.

<u>Risk Assessment update</u>-All references to 14-day isolation contained within the COVID-19 risk assessment are to be changed to 10-days isolation.
